*A Crisis Care Education Ministry*

Dr. James L. Witty

## Care Corps International

Care Corps International was founded by Dr. James Witty in 1996 in response to the lack of a substantial crisis-care resource for the victims of war in the former Yugoslavia. During the Bosnian conflict, Dr. Witty was invited by local community activists and volunteers to care for thousands of victims of genocide, refugees and orphans. This work of supporting and training local members of the community in crisis areas of the world has extended to more than 20 locations. By invitation only, Care Corps teams train those that want to learn how to better serve those they work with and do life with in areas of disaster and war. Care Corps is a resource mission responding to Jesus' command given in the story of the Good Samaritan (Luke 10:25-37) answering the question "Who is my neighbor?"... "the one who showed compassion"... then Jesus said.... "Go. Do it."

### Care Corps International

works at the invitation of local churches, mission and relief agencies to bring programs and training designed to facilitate restorative therapy to hurting people of the world. The mission of Care Corps is to work with local and national care givers, helping to facilitate and conduct therapy, lead group sessions, develop support groups and train leadership for ongoing care giving work.

Additionally, by following the principle given in II Timothy 2:2, we seek to train pastors, relief and mission workers, and lay-counselors to be better equipped servants of the Lord. These local care-givers work alongside our Care Corps team trainers to make an ongoing and sustainable service in their community. Ours is a long term commitment whereby we return again and again as needed to be sure that care-giving is effective and results are lasting.

## Children's Trauma Care Program

Many of the victims of war and violence are children so Care Corps prepares teams to lead Children's Trauma Care Programs. Teams of young adults and professionals from faith organizations, non-profits and colleges are recruited and trained to serve this program under the leadership of our program director. The children's program utilizes a curriculum that includes play therapy, art, music and both group and individual counseling for these traumatized children.

Care Corps International is committed to helping heal children affected by trauma through following Jesus Christ's example of practical compassionate care. Children are particularly vulnerable to great emotional psychological damage in crisis situations such as disaster, conflict, and violence. By facilitating healing and reconciliation Care Corps strives to provide a substantial witness of the incarnational love of Christ

It is our hope that through addressing the emotional psychological, and spiritual needs of children affected by trauma, Christ's redemptive love will be witnessed and received.

2018

### Training Refugee Ministry Workers

We live in a time of unprecedented numbers of displaced people and refugees worldwide. Since 1979 the refugee population has grown

to 50 countries. Almost daily we are made aware of the plight of traumatized people fleeing for their lives.

Among others, Care Corps is training refugee workers in camps in **Lebanon—Jordan—Gaza Brazil—Columbia**

*Never are people more open to the Gospel than when helped emotionally with compassionate care*

## The World Has Come to Us

Care Corps International is increasingly conducting training seminars in the USA. Thousands of displaced people and refugees now populate major North American cities. Churches, non-profit ministries and community leadership are coming together to reach out to these victimized, persecuted, traumatized people who have come to our country broken by torture and violence in their war torn countries. Our team is being asked to bring training we offer overseas and to lead children's trauma care programs here in America to bring hope and healing in the Name of Jesus. Trainings have been held in **San Diego—Seattle—Phoenix—Colorado Springs**

### WHERE WE HAVE BEEN

Angola	Gaza	Romania
Bosnia	Haiti	Russia
Burundi	Ireland	Rwanda
Brazil	Israel	Sri Lanka
Chechnya	Jordan	Sudan
Columbia	Kenya	Uganda
Croatia	Lebanon	United States
Dagestan	Rep of Georgia	Venezuela
